

OIL FILTER

Professional Grade Engine Protection

OIL FILTRATION

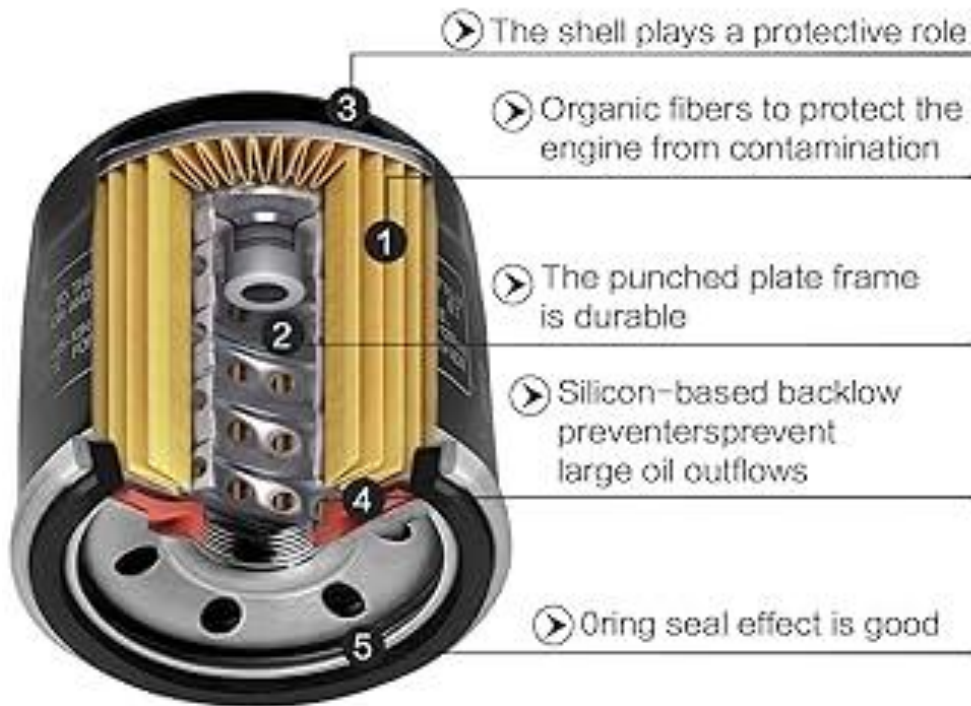

NFC Oil Filters offer outstanding Filter Capacity, enhanced efficiency, consistent flow management & high-durability design that help provide exceptional filtering performance. NFC Oil Filters utilize advanced filtration technology that provides superior protection for longer engine life.

FEATURES & BENEFITS

- 98% single-pass filtering efficiency at 25-30 microns for excellent filtering capabilities.
- Thermosetting adhesive seals hold filtering media in place for consistent, dependable filtration.
- Designed with five times greater burst strength than most engine oil operating pressures after the oil reaches operating temperatures.
- Engineered to meet OE fit, form & function.

GOOD MAINTENANCE PRACTICES

- Replacing your vehicle's filters on a regularly scheduled basis will help the vehicle run better and last longer.
- Use the recommended grade of oil for your vehicle for the best protection and optimal fuel consumption.
- Oil filters should be replaced every oil change to properly filter contaminants that enter your vehicle's engine compartment.

NFC OIL FILTER PRODUCT SPECIFICATION

Materials	Advanced synthetic fiber blend filter media
Gasket Material	Silicone/Rubber
Available application	Canister or Cartridge to match OE
Designed for	Full synthetic or synthetic blend motor oil
Original Equipment Comparison	Meets & Exceeds OE quality
